

MASTER DEGREE IN PHYSICS
Academic Year 2024/2025 – Second Semester
First YEAR CLASS SCHEDULE

From March 3 rd to June 6 th 2025					
Ora	Monday	Tuesday	Wednesday	Thursday	Friday
9:00-11:00	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula D3	Computational Methods for Physics Prof. Itaco Lab. Calc. Scientifico Numerico	Stochastic Processes Prof. Sarracino Aula SEMINARI	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula C3	Computational Methods for Physics Prof. Itaco Aula E3
11:00-12:00	Computational Methods for Physics Prof. Itaco Aula D3	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula C3		Ecological Climatology Prof. Rubino & Castaldi Aula I	Condensed Matter Physics Prof. Moretti Aula E3
12:00-13:00				Complementary topics of theoretical physics Prof. Coraggio & De Gregorio Aula C3	
13:00-14:00					
14:00-15:00	Condensed Matter Physics Prof. Moretti Aula D3	Complementary topics of theoretical physics Prof. Coraggio & De Gregorio Aula C3		Condensed Matter Physics Prof. Moretti Aula C3	Applied BioPhotonics Prof. Lepore Aula C3
15:00-16:00				Applied BioPhotonics Prof. Lepore Aula E3	
16:00-17:00	Models and tools for weather prediction and climate Prof. Lippiello & Rubino Aula C3	Models and tools for weather prediction and climate Prof. Lippiello & Rubino Aula D3	Physics Laboratory Prof. Marzaioli & Buompane Lab. Circe	Models and tools for weather prediction and climate Prof. Lippiello & Rubino Aula E3	
17:00-18:00					
	Astrophysics Prof. ssa Iodice Aula D3	Nuclear Astrophysics Prof. Gialanella & Buompane Aula C3		Nuclear Astrophysics Prof. Gialanella & Buompane Aula C3	

Second YEAR CLASS SCHEDULE: Thesis activity to be organized with tutors
