

MASTER DEGREE IN PHYSICS
Academic Year 2024/2025 – Second Semester
First YEAR CLASS SCHEDULE

From March 3 rd to June 6 th 2025					
Ora	Monday	Tuesday	Wednesday	Thursday	Friday
9:00-11:00	Stochastic Processes Prof. Sarracino Aula C3	Computational Methods for Physics Prof. Itaco Lab. Calc. Scientifico Numerico	Stochastic Processes Prof. Sarracino Aula SEMINARI	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula C3	Computational Methods for Physics Prof. Itaco Aula E3
11:00-12:00	Computational Methods for Physics Prof. Itaco Aula C3	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula C3	Complementary topics of theoretical physics Prof. Coraggio & De Gregorio Aula C3	Ecological Climatology Prof. Rubino & Castaldi Aula C3	Statistical Mechanics Prof. Lippiello & de Arcangelis Aula E3
12:00-13:00					
13:00-14:00					
14:00-15:00	Condensed Matter Physics Prof. Moretti Aula C3	Complementary topics of theoretical physics Prof. Coraggio & De Gregorio Aula C3	Physics Laboratory Prof. Marzaioli & Buompane Lab. Circe	Condensed Matter Physics Prof. Moretti Aula D3	Condensed Matter Physics Prof. Moretti Aula E3
15:00-16:00				Applied BioPhotonics Prof. Lepore Aula C3	
16:00-17:00	Models and tools for weather prediction and climate Prof. Lippiello & Rubino Aula D3 Astrophysics Prof. ssa Iodice Aula C3	Physics for Archaeology and Cultural heritage Prof. Marzaioli & Sabbarese Aula E3		Models and tools for weather prediction and climate Prof. Lippiello & Rubino Aula D3	Applied BioPhotonics Prof. Lepore Aula E3
17:00-18:00					

Second YEAR CLASS SCHEDULE: Thesis activity to be organized with tutors
